Invest in Your Career

Takeaways

In addition to completing our 32-Hour and 48-Hour* certificate programs, by the end of this course, you will be able to:

Breakdown the commercial leasing process and the players involved.

Comprehend the importance of laying the groundwork in negotiating letters of intent.

Pinpoint how clauses and language within a lease interact with one another.

Refine and improve your business pitch, secure invaluable job interview skills, and solidify your college application and/or fortify your resume.

Too Busy?

Find out what real estate and business rock stars and students are saying.

“In today’s quick global environment, which includes performing real estate tasks with less available staff, the unfortunate truth is that we are unable to properly mentor the upcoming generation. Leasing REality is a timely all encompassing tool which will fill that void. Coupled with the unique Larry Haber teaching style of keeping it simple and complete, this is a tool which we should all use to teach our staff.”

— Jeffrey L. Elie, Vice President, Global Real Estate and Facilities at Kaplan, Inc.

“In the weeks leading up to my first day in the office, I was nervous, yet excited to start my journey at Leasing REality. Not only did I learn a great deal about commercial leasing through the 32-Hour Program, but I also acquired essential marketing skills that will help me in my future career. I was given the opportunity to enhance my analytical abilities, but I also was able to build upon my writing skills through blog posts and social media pitches.”

— Nicole H. | Student at Stony Brook University

“This experience has reaffirmed my desire to work at a smaller company down the line and will certainly influence my search for a job after graduation. I had never before worked on a team where everyone was so vested in the final outcome. The group brainstorming sessions were not only conducive to improving Leasing REality, but they also taught me to appreciate others’ feedback and ideas. This is something I will take with me and will shape the way I work with others in the future.”

— Owen P. | Student at George Washington University

A Note from Nelson Mandela: "Education is the most powerful weapon which you can use to change the world."

Recently the Miami Marlins made an historic and impactful hire for women, minorities and men for that matter, namely that of Kim Ng being hired to become the first female GM and Head of Baseball Operations in MLB. Despite being a force in the baseball industry from the time she was 21, it took her nearly 30 years to reach this pinnacle, being turned down countless times when men with a fraction of her skillset were hired by a handful of teams if not more.
